first allotment. Bleached goods, however, remain unchanged. Independent packers, who under the compromise reached in the suit brought against the association by Atty.-Gen. Palmer, are to receive 20,000 tons of this season's crop will, it is understood, charge the same rate as the association. The price list is as follows:

PRICES FOR CROP.

Muscats: Package seeded, sun mald, twenty-five-pound boxes 20 1/2 cents a pound.

Loose, twenty-five-pound boxes, one crown, re-cleaned and floated, 10 1/2 cents a pound; two crown, re-cleaned and floated, 11 1/2 cents a pound; three crown, re-cleaned and floated, 12 1/2 cents a pound.

Layers, three crown flat pack, twenty-pound boxes \$4.40 box; ten-pound boxes \$2.40; five-pound boxes \$1.20 box.

Clusters, four crown pack, twenty-pound boxes \$4.70; ten-pound boxes \$2.55 box; five-pound boxes \$1.40 box.

Six crown flat pack, twenty-pound boxes \$5.50 box; ten-pound boxes \$2.95 box; five-pound boxes \$1.60 box.

Sun mald, Imperial, four five-pound cartons to box, \$6 box.

Vineyard run, sun mald, 100-pound boxes \$21 box (retailing at 19 cents per box).

Thompson seedless sun mald, re-cleaned, twenty-five-pound boxes, 21 cents a pound.

Sultanas, sun mald, re-cleaned, twenty-five-pound boxes, 20 1/2 cents a pound.

EXPORTERS URGED TO USE AMERICAN SHIPS.

ADMIRAL BENSON WARNS AGAINST EVILS OF CUTTING OCEAN RATES.

(BY A. P. NIGHT WIRE)
WASHINGTON, Nov. 8.—American exporters must patronize American ships if ocean freight rates are to be kept at reasonable levels, Admiral Benson, chairman of the Shipping Board, declared today.

He added that if foreign shipping cut rates to business by undercutting the vessels of this country, foreign rates will rise as the American flag is forced out of the seas.

The board has no intention of driving out foreign competition, the chairman said, but its policy is to maintain ocean rates on a basis where the efficient ship operators will obtain cargoes, regardless of nationality.

The majority of imports continue to arrive in American bottoms, the chairman said. During the week ended October 27, the board's records show 125 American ships arrived, with 337,442 tons of cargo, compared with 124 foreign ships, with 174,844 tons, while 131 foreign ships arrived in ballast against only seventy-five American vessels.

INVESTIGATE CHARGES MADE IN REICHSTAG.

(BY A. P. NIGHT WIRE)
WASHINGTON, Nov. 8.—Charges made recently in the German Reichstag that American soldiers at Coblenz had been guilty of drunkenness and disorderly conduct will be communicated to Maj.-Gen. H. T. Allen, commander of the American Occupation, for investigation, Secretary Baker said today.

Mr. Baker said that he had no reports from American officers of any such occurrences among the American troops.

Ruth St. Denis AND Ted Shawn

THE RUTH ST. DENIS
CONCERT DANCERS

will appear in
A 2nd PERFORMANCE OF
"MUSIC'S VISUALIZATION"
Next Friday Evening
Nov. 12th
At Trinity Auditorium

This Second and Final Performance

is given in response to insistent public demand expressed by the enthusiastic reception accorded the initial production, and by the hundreds of people who were unable to secure admission to the previous performance. The entire personnel of noted dance artists and musicians appearing on the former occasion will be seen and heard next Friday night, with the addition of Ted Shawn, which will lend greatly to the interest of the event. As on the former occasion, and in all Ruth St. Denis productions.

The KNABE PIANO

will be used exclusively, furnishing the rich beauty of tone so essential to the artistic success of this performance, in which music plays so conspicuous a part.

BOURBONS GIVE YEAR'S EXPENSE.

Appropriations Estimates Prepared by Wilsonians.

Republican Congress Expected to Make Changes.

The Total Budget Likely to Exceed \$4,000,000,000.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 8.—Estimates upon which Congress will make appropriations for the first fiscal year of the new Republican administration are now being prepared by the various government departments under the direction of Democratic Cabinet officers and in accord with the policies of the Wilson administration.

CHANGES EXPECTED.
The estimates will be submitted to Congress at the opening of the next session on December 8. Since the Republicans have majority in both the Senate and House sharp changes are expected to be made in most of the estimates.

The present political situation with regard to the annual appropriations is similar to that which obtained eight years ago after the first election of Woodrow Wilson, but the economic situation in the country was vastly different. At that time Taft administration Republicans were in control of the executive branches of the government, but the Democrats had a majority in both the Senate and House.

The forthcoming estimates for the War Department will be based upon the requirements of an army the size of which already has been fixed by the Republican Congress but the naval estimates will be based on the Democratic program. Secretary Daniels had repeatedly said that unless the United States became a member of the League of Nations it must maintain the most powerful Navy in the world.

MAY HAVE MORE CRAFT.
Under the program authorized in 1916 the government is constructing five great battle cruisers and more than that number of superdreadnaughts and the forthcoming naval estimate is expected not only to include appropriations for carrying on this work, but also recommendations for additional craft.

COSTLY ESTIMATE.
Estimate for all of the government departments are expected to exceed \$4,000,000,000, including amounts for refunding portions of the public debt falling due during the next fiscal year. Estimates for the present fiscal year exceeded \$4,000,000,000, but these subsequently were reduced by something like \$2,000,000,000.

Whether all of the annual supply measures will be contemplated at the next session remains to be determined. President-elect Harding is expected to call a special session of the new Congress soon after he takes office on March 4 and it may be that some of the appropriation bills will go over to the special session.

Head of French Forces Arrives at Washington.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Nov. 8.—Gen. Georges Robert Neville, former Commander-in-Chief of the French army and delegate to the territorial celebration of the American Mayflower Council, to be held this month, reached Washington tonight from New York, where he arrived today on the steamship La Lorraine. After paying his respects to members of the Cabinet and other government officials tomorrow, Gen. Neville, who will remain in Washington until Thursday, will be entertained at luncheon by Secretary Baker. Guests at the luncheon will include members of the Cabinet, Gen. Pershing, Gen. Peyton C. March, Chief of Staff, and members of the French Embassy. Later in the day Gen. Neville will visit the tomb of the French officer who will review the corps of naval cadets at Annapolis.

Gen. Neville, who is now a member of the Supreme War Council, succeeded Marshal Joffre as Commander-in-Chief of the French army in 1918, following the brilliant success of the French forces under his command at Vaux and Douaumont.

"AUSTRALIA AND THE SOUTH SEAS" illustrated lecture. Lady Hope W. Clifton, F.R.G.S., will lecture. Admission free. Tonight at 8 p.m.

Do This For Constipation

THE public should know that there is a vast difference in the action of the various remedies for constipation. Some are "laxatives," purges, physic. They grip and weaken. For lasting effect use a laxative. Dr. Caldwell's Brisk Pepsin acts gently and mildly so that even the baby can use it with safety. It is a compound of Egyptian Pepsin and other simple laxative herbs with peppermint and pleasant-tasting aromatics. A six-ounce bottle will last an average family many months. Dr. Caldwell's Brisk Pepsin is the most popular of all laxatives and more is used in American homes than any other. Last year eight million bottles were sold by druggists, the largest sale in the world.

TRY IT FREE

Send me your name and address and I will send you a free trial bottle of Dr. Caldwell's Brisk Pepsin. Address: Dr. W. R. Caldwell, 513 Washington St., Mendocino, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

Madam:
Brisk will soon be
in the household
—later it will be
in the Dictionary!

SATISFACTION

Prudence Penny Recommends BLUEBIRD Electric Clothes Washer

The famous domestic science expert has added her praise and recommendation in favor of BlueBird.

To the women of today she makes an effective appeal which you should not fail to consider. Demand quality, appearance and correct washing principle when selecting a clothes washer.

The BlueBird combines these three essential qualities in a degree unknown in other types of electric clothes washers, and remember—BlueBird, the best electric clothes washer costs only a few dollars more than the poorest on the market today.

BlueBird is manufactured by a concern of 51 years experience, is backed by a factory service station located in Los Angeles and its value is further enhanced by being sold only through electrical dealers of the highest standing.

Visit your nearest BlueBird dealer and have him demonstrate BlueBird for you—

GAY TIME ON BLOOD MONEY.

New Jersey Men Held for Bank Messenger's Death.

Claim Robbery Proceeds Went for Wine and Women.

State Troops Are Kept Busy in West Virginia.

(BY A. P. MONT WIRE.)
CAMDEN (N. J.) Nov. 8.—More than \$5000 was spent in five days for gay parties in Philadelphia by Raymond W. Schuck and Frank J. James, after they killed and robbed David A. Paul, Camden bank messenger, according to Prosecutor Wolverton of Camden county, who tonight made public additional details of the alleged confession of the two men. Wolverton announced that \$45,000 of the \$48,000 in cash, stolen from Paul, was found today in James' home here. The remainder, more than \$3,000, was buried in two packages at the head and foot of the grave of Schuck's mother, and has been recovered, the prosecutor said.

Schuck, according to an alleged confession buried the money in Evergreen Cemetery on October 11, six days after he and James, riding with Paul in a motor car in Camden, killed the messenger in order to make a better financial showing among their friends.

Mr. Wolverton said James and Schuck, who are in Burlington County Jail, would be brought to trial in Camden. Both prisoners are married. James, who is 27 years old, was a motor car salesman. Schuck is 31, and was supervisor for a telephone company here.

DISCLAIMS RESPONSIBILITY.
Schuck disclaims responsibility for the actual slaying of Paul, declaring he was forced into the plot by James, who, Schuck says, according to the police, beat Paul to death.

Schuck and James, Mr. Wolverton said tonight, had a bungalow at Clementon, N. J., known as "Lollypop Cottage," where they were entertaining parties of men and women. As these parties grew larger and more expensive, he added, they found it necessary to provide themselves with more money and, accordingly, planned the slaying and robbery.

The night of the killing, the prosecutor declared, the two men had a gay party with a number of women in Philadelphia.

"The next day they met several other women," said Wolverton, "and for five days they were with girls in Philadelphia, drinking and spending money lavishly."

HELD FOR GIRL'S MURDER.

(BY A. P. MONT WIRE.)
KANSAS CITY (Mo.) Nov. 8.—A warrant charging Dennis Chester, arrested today in Great Falls, Mont., with the murder of Miss Florence Barton, prominent young society woman here, was issued late today on complaint of an official of a private detective agency. Miss Barton was shot and killed the night of October 1, last, while motoring with her fiancé along a suburban road.

Two other men suspected of complicity in the murder are said to be under arrest on minor charges in Missouri towns. Chester will be brought to Kansas City and the formal charge of murder lodged against him, officials said. Chester, the announcement said, had been traced from here to Tia Juana, Mex., Los Angeles, back to Denver, and thence to Great Falls, where he had arrived only an hour before his arrest.

Howard Winter, who was the fiancé of Miss Barton, and who was wounded at the time she was shot, identified a photograph of Chester as one of the three men who attempted to hold up the pair at the time the shooting occurred.

TROOPS KEPT BUSY.

(BY A. P. MONT WIRE.)
WILLIAMSON (W. Va.) Nov. 8.—Three shooting affrays, including two attacks upon mining properties and an attempt to dynamite a mine tipples, have kept State troopers busy in the Mingo coal strike within a period of eighteen hours, according to reports made by authorities today. Two of the attacks, carried out by parties of unidentified men, occurred late today.

KILLED HIS SWEETHEART?

(BY A. P. MONT WIRE.)
ST. LOUIS, Nov. 8.—Albert Ellis, 21 years old, late today was indicted on a charge of first degree murder in connection with the killing of Miss Edna Ellis, 18, his former sweetheart. Miss Ellis was found badly cut on a vacant lot near her home here last Friday morning.

FOR SECOND TIME.

(BY A. P. MONT WIRE.)
LITTLE ROCK (Ark.) Nov. 8.—The case of six negroes sentenced to death in connection with the race riots in Elaine, Ark., today were submitted to the State Supreme Court for the second time. When submitted the first time, they were remanded for retrial because of an error in the verdict. A second verdict of guilty was returned by the lower courts, and the case again appealed.

The six negroes involved and six others whose cases have been finally decided, now are held in death cells at the penitentiary.

EIGHT-CENT FARE.

STAYS IN CHICAGO.

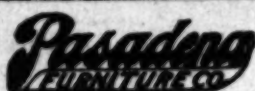

(BY A. P. MONT WIRE.)
CHICAGO, Nov. 8.—The Public Utilities Commission today sustained the 1-cent fare in Chicago and made it permanent. Valuation of the surface lines was fixed at \$152,113,114. The city fought the 1-cent rate and insisted the franchise rate of 5 cents be restored.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching, burning, and stinging. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Rose Co., Cleveland, O.

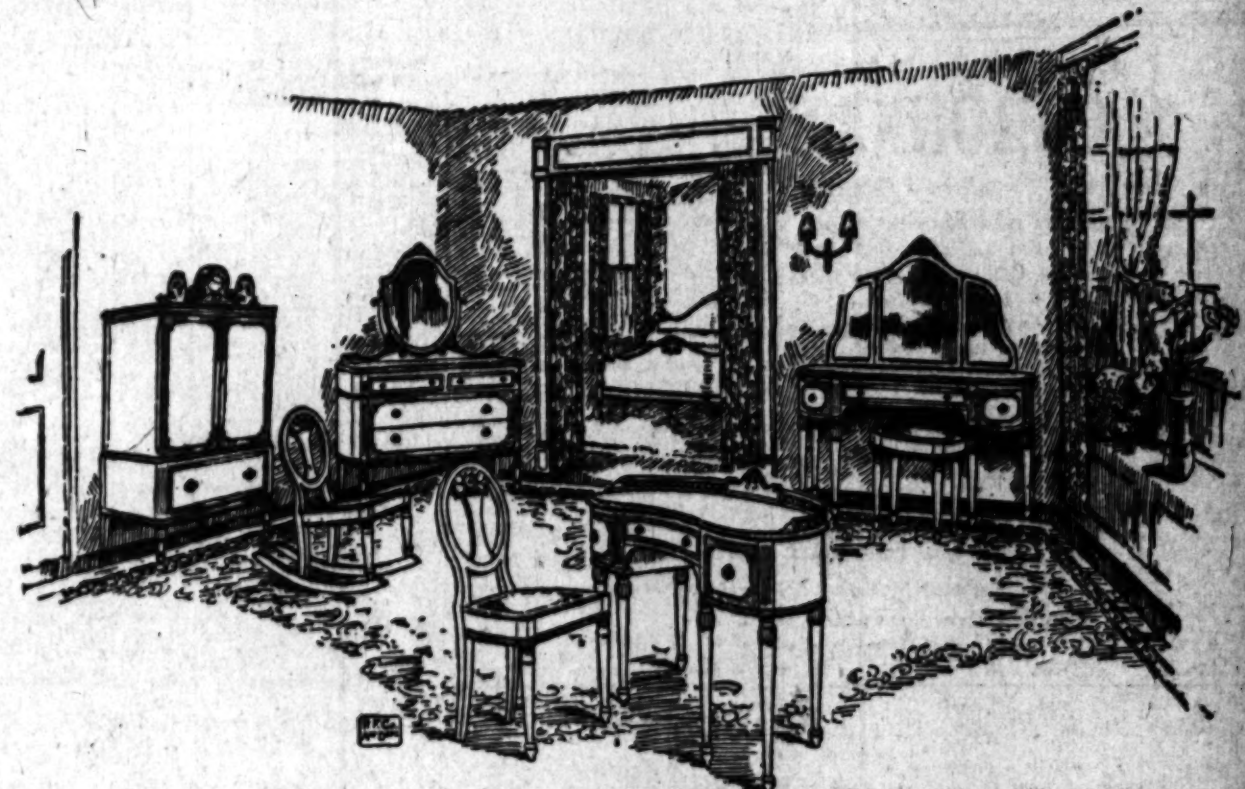

Ten Floors in a Location That Enables Us to Sell for Less

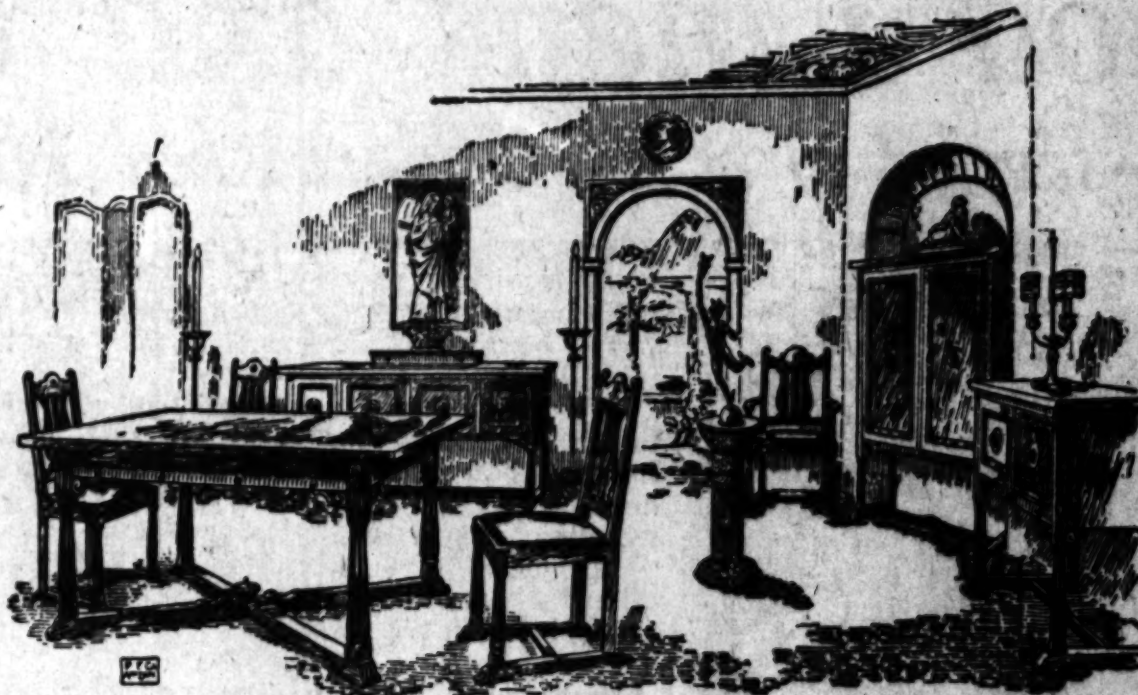

Special Values in Fine Furniture

You seldom find it difficult to obtain cheap furniture at a cheap price. Good furniture is hardly ever cheap in price, yet it is usually the best investment. To secure it at prices that are lower by comparison is real economy and that is why it will pay you to come here for the better sort of furniture, no matter where you live.

This Bedroom Suite Underpriced

This exquisite new suite in burl walnut is one of many high-class designs shown on our Fourth Floor, which is entirely devoted to matched bedroom suites from most of which any number of pieces may be selected at the reduced prices now prevailing.

One of the Special Values in Dining Suites

The People and Their Daily Troubles

DOROTHY DIX TALKS

Winning a Husband

BY DOROTHY DIX.

A young woman tells me that she is in love with a man who likes her, but is not in love with her, and she wants to know how she can heat this lukewarm affection up to the boiling point.

It looks as if it should be easy enough to turn liking into love, but, as a matter of fact, it is more difficult to induce an old acquaintance to look upon us in a new light than it is to fire the fancy of a stranger. Still, of course, it can be done. Hearts are won by patient siege, as well as by assault and battery.

No one will deny that the difficulty that this young woman confronts is the principal answer to this query: Why is there such a falling off in matrimony? It is because so many men have substituted liking for loving, and women nowadays have too many men friends and too few suitors.

It is the price that women are always either at the stalling or the freeing point. How to change these comrades into lovers and husbands is the problem that confronts thousands of young women. It is a difficult task, and one that each individual woman must work out for herself; but perhaps no better remedy for the general situation can be suggested than to try the shock treatment.

The trouble with a great many women is that they let themselves become a habit to the men they love. If a woman knows that the man on whom she has set her heart depends on her for sympathy, she is always ready to hand him out the glad hand or tears, according to his demand on her. If she knows he depends on her for companionship, she is ready to trot around the golf links with him, no matter how she loathes it, or to automobile with him, though she quakes in terror every minute of the time, or she lends a listening ear while he discusses the merits of the latest stock market, or politics, or whatever other subject he is interested in, and about which she only cares because he cares.

If she knows he depends upon her for comfort she will work her fingers to the bone to give him the food he likes and to have his chair and his smoking stand and his reading light just at the particular angle that he prefers them.

And in time the man comes to take all this devotion with the same calm acceptance that he does the sunrise and the beauty of nature and the consciousness of life. The woman does not exist as a woman in his consciousness, but simply as a thing that gives savor to life. He does not even recognize how dear and precious a woman is to him until she leaves the scene.

That is why many men who have been indifferent husbands are heartbroken widowers when their wives die. The measure of their loss is the measure of their love. So I would advise any woman who is tempted to win the modern man to first make herself necessary to his happiness and comfort and then to

And when the only way to get this admiring audience was to marry her, he found her to him with a wedding ring. Now he turns the trick with platonic friendship, and tells the woman she is a good old scout, instead of the angel of his dreams. Also he speaks of liking instead of loving.

All of which is hard on women, because the feminine heart is still doing business at the same old stand, in the same old way, and woman's talent is for loving, not liking, anyway. Her emotions are

MAKING MORE MONEY.

Health Seeker Turns Camera Craze Into Means of a Livelihood.

WHEN, some ten years ago, Robert Bruce was informed that he would have to live an outdoor life if he wished to have the remnants of his health, he was stumped for a way in which to make money at the same time. Bruce decided to take a trip into the Cascade Mountains. In his pack he carried a small but very efficient camera. Upon his return his friends exclaimed in admiration over the beautiful photographs which Bruce had secured. The mountain fastnesses of the Cascades were virgin territory, so far as a camera was concerned, and the pictures found a ready sale among lovers of nature.

Taking the hint, Bruce determined to adopt the plan as a permanent venture. He invested a portion of his very slender capital in photographic supplies and enough food to last him for several weeks. Then he set out across through the Cascades and gradually worked his way east, selling the photographs at each city or town that he would reach. The success of the idea was almost immediate and Bruce found that in the simplest act of photographing the grandeur of a little-known part of the scenic country he had solved the double problem of making his health and making money.

Now the first difficulty doesn't bother him a particle for the outdoor work in addition to providing capital sufficient to finance him for several years to come.

As a glaring example of this selfish spirit may be mentioned the amendment prohibiting alien from buying land in California. But as a climax to all other mean-nesses, I would refer particularly to the alien poll tax of \$4 a year. The real measure of the selfishness of the Californians is in the fact that, while the Californian re- spected by common vote, the former tax of \$2, when it pinched his over- foot, he is only too ready to restore the offensive measure when aimed only at the stranger within his gates.

To my mind such a tax is archaic, feudalistic and reactionary, embodying all the worst features of an undemocratic people, causing the alien resident to feel he is not wanted, and a search for those superior advantages of a district which the native son would monopolize for himself, as if somehow he was a responsible creator for his favored position.

To state that the remedy consists in becoming a citizen may not al- ways be applicable, as untoward circumstances and a search for bet- ter health may compel a man to ex- patriate himself, and it is not al- ways quite fair to demand one to re- source country and home ties to become a citizen in a foreign land.

I feel sure, moreover, that the average American would resent any such restriction if conditions forced him to reside in any Mex- ico or any South American country.

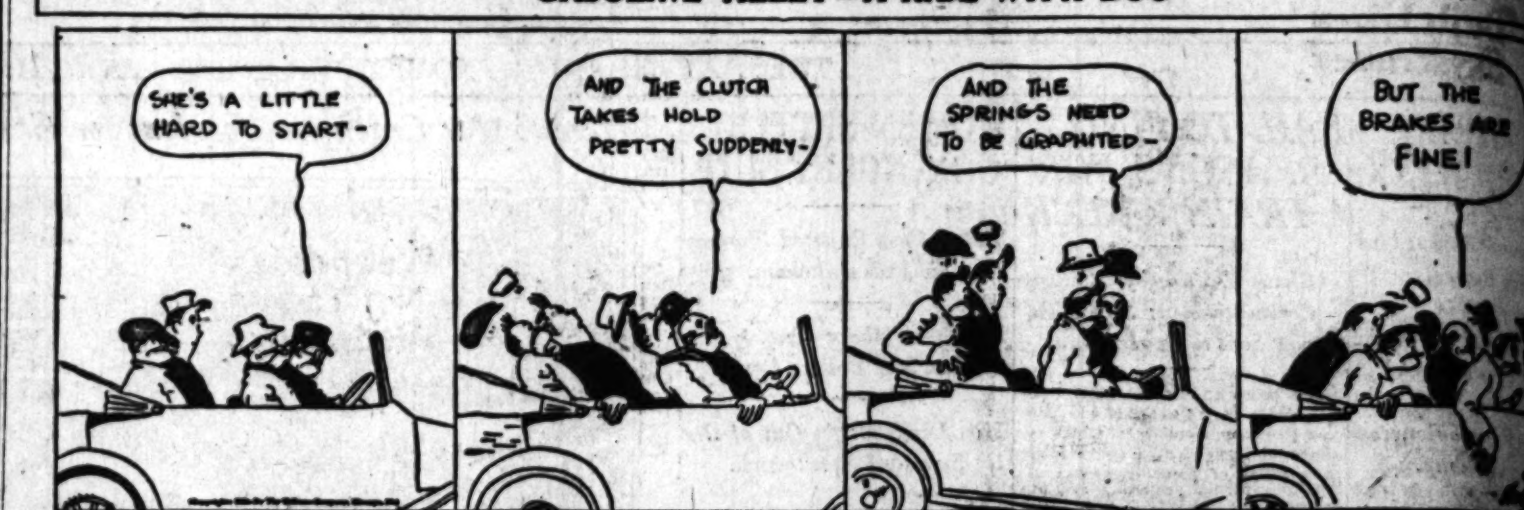

JAMES WOOD.

Wants It Explained.

LOS ANGELES, Nov. 8.—[To the Editor of The Times:] I was reading the story of the infant daughter of an eastern professor who was about to move west- ward. The night before they left she added these words to her usual prayer: "Goodby God, we're going to Chicago."

What are the plain facts? What, e.g. is one to think of the systematic robbing of the tourists by rent profiteers taking advantage of a house shortage? In the past election, again, several of the

BUT THE BRAKES ARE FINE!

QUESTIONS ANSWERED

Q: In checkers is it obligatory to jump a man if the chance offers?

A: According to Hoyle it is obligatory to jump a man in checkers whenever the opportunity offers.

Q: Can tattoo marks be removed from the skin?

A: Tattoo marks may be re- moved by the application of a paste of malic acid and glycerin. A com- press of the paste is applied to the tattooing and the whole secured with sticking plaster. After about eight days the paste is taken off, the dead skin removed, and the application of paste repeated. As a rule about three applications do the work.

Q: How can a hole be made in glass?

A: Press upon the glass a cake of wet clay, and make a hole the de- sired size through the clay, laying bare the glass at the bottom. Four melted lead into the hole and it will drop through the glass, leaving a round smooth hole.

Q: What is gram cloth made of?

A: Gram cloth is made of an Aber- known as China gram or Chinese

WHAT OF THE LEAGUE?

During the early days of rejoicing over the fall of the Democratic citadel Republicans put aside by common consent the discussion of any question that might mar the cordiality of mutual congratulations. But, as election returns cease to adorn the first pages of the newspapers and President-elect Harding sets off on his first pilgrimage, those whose faith has never wavered in an association of nations to promote peace are beginning to ask "What of the League?"

Mr. Taft, one of the ablest and most ardent of the covenanters, writes that we cannot escape the conclusion that the League covenant as written in Paris and signed at Versailles cannot receive general acceptance. His rejection by the people of the United States has had a far-reaching effect. It is the almost unanimous opinion of the French press that some of the objections raised against the present covenant are well founded. The leading French statesmen reiterate that it was accepted by the French commissioners under protest because President Wilson insisted that it was the only kind of covenant that would receive general acceptance in this country. They announce in advance that they will welcome the calling of a new conference to go over the whole question of international associations.

British statesmen are more reserved in their comments. Their long diplomatic training has taught them the peril of taking a position on issues before they actually arise. The British government will not give an expression in advance, even unofficially, as to its attitude towards an amended covenant. The ministers content themselves with saying that the new American President will find them in a receptive mood for a further discussion of international alliances.

Mr. Harding has asserted unequivocally that he will not present the covenant of the present League to the Senate for ratification until Article X has been eliminated. That elimination can only be made with the consent of the other signatories. Mr. Root says that this article would bind the United States to use its army and navy to preserve the existing boundaries of the signatory nations it called upon by the Supreme Council of the League. He says that Congress could refuse to declare war at the behest of the Supreme Council, but that, in doing so, it would be deliberately breaking this country's treaty obligation. He points out that it is possible for the American government to repudiate an existing treaty, but he denies that it has the moral right to do it. This opinion has been generally accepted as the last word in regard to the obligations of Article X.

Mr. Taft says bluntly that Article X must be eliminated if the United States is to join the League. He bases this conclusion upon the attitude of Mr. Harding and other Republican leaders. He says, further, that there must be a more definite expression of the rights which this country will continue to exercise under the Monroe Doctrine. Reference to this doctrine must be made clear that interpretation by other nations will be impossible. He says that there must be an inclusion of an international court along the lines proposed by the Root-Phillimore commission. The object of this court is to settle the League on justice and international law rather than on military arguments. If the international court is included in the covenant the effect will be that the personnel of the League will be composed of judges and jurists rather than diplomats and politicians. The justice of the League will be apparent to all and politicians are more likely to consider the personal interests of their governments than to weigh international questions on the balances of exact justice.

Mr. Harding has expressed himself as opposed to the chapter of the covenant relating to labor and industry. His avowed hold that it favors too much of radicalism. That chapter was drafted by Gompers et al. in conference with the organized labor leaders of Great Britain. It represents the radical influence in the councils of President Wilson. The French government will probably not accede to the new American commission in redrafting this chapter; but opposition may come from the British government, which occasionally flinches before the arrogant attacks of the British labor unions. It is possible that this chapter would be wholly eliminated in an amended covenant dealing with questions that do not come strictly within the province of international treaties.

Mr. Taft and the covenanters with whom he is associated are strongly of the opinion that it would be more desirable to amend the present covenant than to attempt the negotiation of a new treaty. They give as their reasons that a great many things were settled in the Treaty of Versailles that would have to be settled all over again if that treaty were rejected. They like it to the late Mr. Harrison's celebrated maxim about unscrambling eggs. There is likely to be a great deal of discussion during the next few months concerning the method of procedure for reopening proposals for America's joining the League.

Friends of the League idea base their hopes upon Mr. Harding's declaration in one of his platform addresses that: "If I am elected to the Presidency I will become the negotiating agent of the United States and will have the authority to negotiate a new covenant, which I would promptly proceed to do." Under this declaration the content of the President-elect is plain; but the question of procedure is one that the future must decide. The new President will find opposition in the Senate if he attempts to amend the present covenant that might be composed of an entirely new instrument were framed. There is no concealing the fact that the peoples of the world are still far from an agreement on the kind of association of nations that will serve best to cause international questions to be settled by an appeal to justice rather than to military force. The spirit of international amity was expressed in the peace league formed at the close of the Napoleonic wars; but it was only a hypocritical expression. The leading governments of the world were not yet representative of the will of the governed. That condition no longer exists. Governments are now representative, not dictatorial, and the will of the people adds expression in national law and treaties.

So the Times exhorts all covenanters to maintain stout hearts and to be of good cheer. The spirit of international amity burns brightly; but the failure of the first attempt to draft a satisfactory covenant

The Man Behind.

is a warning to proceed deliberately and with due caution in forming the next. The intent of Mr. Harding is plain. He hopes to negotiate a covenant that will be accepted alike by governments and by peoples. He will meet the strongest opposition of the "bitter-enders" and he will need the untold support of all those who are determined that out of the horrors of the late World War there shall grow an association of all peoples to the end that such another man-made cataclysm shall not be encountered in the evolution of the race.

THE ROUGHNECK. People still persist in being surprised when out of a tremendous upheaval a roughneck comes to the top. One of the intelligentsia, or cultured, class of Russia landed in New York yesterday after some rather lurid experiences and immediately gave out an interview in which he said that the outcome in Russia was the central idea. He accurately pointed out that the intelligentsia paved the way for the revolution, but that at the critical moment the double-faced element had stepped in and taken charge, and had then proceeded to grind down and oppress the cultured. When was it otherwise? In an ordered, balanced, bulwarked society the roughneck plays a sorry role, but when chaos reigns, the land and the people and barriers are gone he wades into the maelstrom in his own rough fashion, and generally emerges the victor. He begins by despoiling culture and invariably ends by assuming and fostering it as a necessary part of an established and abiding order. He has within him a hard, larger than that of the United States. But suppose it is. What of it? With its area of close to 3,000,000 square miles Australia has a population of about 6,000,000, while the United States, which is a few feet smaller, has 100,000,000. That's only a difference of a mere 100,000,000, all of whom doubtless come under the "pro's" classification of the abnormally ignorant. This is certainly true, the average American knows as much about Australia as the average Australian knows of the United States. The professor can't expect every body over here to know the exact geographical position of Sydney, or even of the Wallabi Islands, and it is not indispensable for Americans to be aware that Rum Island is preserved for mutton bird hunting. Australia is a fine country, no doubt, but give us the good old U.S.A.

WHERE IS MONT BLANC? Ask the first ten people you meet where Mont Blanc is and at least nine of them probably all ten—will unhesitatingly reply "Switzerland." The fact is that the "monarch of mountains," as Byron called it, is mainly in France, and the ascent is commonly made from the French side. "But surely Chamonix is in Switzerland," your interlocutor exclaims. Not at all. Chamonix and Mont Blanc are in the French department of Haute-Savoie. And the fact that most people believe them to be in Switzerland annoys the French very much indeed, especially the residents of that region. So there is a campaign on foot now to re-baptize the "Department de la Haute-Savoie" and call it "Department du Mont Blanc."

The French press has taken up the campaign with a vengeance. One paper bitterly complains that "everything in the Alps seems to be regarded as Switzerland's by natural right." It is likely that the government will give heed to this clamor. And at the same time many papers urge that other departments be given new designations—or rather that they be permitted to go back to the ancient ones. The French revolution wanted to destroy all vestiges of the old regime, of the old days when France was a bundle of little kingdoms and principalities, so it abolished the names of the provinces and named them Touraine, Poitou, Normandy, and so on. In their place numerous designations that breathe an official, bureaucratic air. And there are suggestions that drive schoolboys to distraction. How can one ever remember the distinction between Haute-Loire, Loire-et-Cher, Loiret and others in which the rivers Loire and Cher appear in bizarre combinations?

People who give to all place names a deeper meaning will welcome the official revival of Provence and Pays-Basque and a score of others. About the only department names that have any flavor are Finistere, Morbihan, Pas-de-Calais and Cote d'Or.—[Foreign Press.]

NO DROUGHT.

BY HARRY A. WILLIAMS.

Is New York dry? Yes, just like Chicago. And Chicago is dry like the Big Lakes.

In neither of these towns is it difficult to get under the influence of prohibition. Victims of the Volstead Act can be located by their 100 per cent breath.

When there are no more fish to swim in the ocean it may dry up, and may not, but the United States won't be bone-dry until the fish are extinct. That soon, but not sooner.

As long as there is a parched throat there will be something with which to load the stomacher.

Patience of self-preservation is strong in man, and some men feel that the surest way to do this is to pickle themselves.

Bootleggers are almost as common in New York and Chicago as Germans were at the Somme.

It would take the A.E.F. to enforce prohibition in New York, and even the A.E.F. is opposed to any more foreign wars right away.

You can still walk through the swarming dunes there and get a powder if you look upright and honest.

But if you wear rubber heels they pour the stuff down the sink. There is no law against feeding it to the sewer.

They even haul it in hoovers, but not in the direction of the cemetery.

If only half of New York wanted to drink it would be easier. The other half could be appointed prohibition agents.

But the other half seems to sympathize with the first half. One wouldn't say it is a town with but one thought and a single thirst, for the tastes vary.

And there are some who can't afford it.

We will say that brew is much easier to obtain a bargain in New York or Chicago.

Can't seem to keep it out. They are shooting it across the Great Lakes from Canada in torpedoes.

The torpedoes carry Canadian Club in the main hold. They have a "blue blazer" under the motor, an absolute cocktail in the stern and an egg-buster in the bow.

They also carry a "brandy fix" in case anything gets out of order on the way across.

Some are equipped with a "rum smash" in case they happen to hit a revenue boat.

Only way to stop them is to mine the Great Lakes.

Then there is the local output. Many miserable homes having been converted into happy breweries.

Mixed drinks are not as prevalent as formerly because too complicated, and everybody wants to avoid complications.

Bootleggers offer a fair variety, although none of them is able to serve a "golden slipper."

Some of them specialize in "California cobbler."

Up-to-date boot has spiced on the heel and can be easily tapped.

Best to tap it with the Morse code as nobody will hear and the bootlegger will understand your message.

Don't tap too hard, as heavy blow on the heel might make bootlegger more groggy than he is.

Demons can't stand by a long should be might say by many shots—but he's expiring.

Drinking anything except soft drinks is becoming too hard and expensive.

Rising generation is learning none of the joys of blistering its insides. They think that hoosh should be taken through a straw.

Build a Chinese wall along the Canadian border, another along the front door of Mexico, put a cork in every port, pass a law prohibiting all the difficulties of bootlegging and force the bootleggers to go barefooted and still these United States wouldn't be as dry as skeleton.

Brotherhood of Bootleggers will pass away with the last venereal disease about twenty years hence.

Then, and not before, will we have been aridly.

UNKNOWN VICE-PRESIDENTS. "Now," said the professor blandly, addressing his class in political history of the United States, "let me test your general knowledge. Who was Richard M. Johnson?" Silence deep and unbroken.

"Well, then, who was George M. Dallas?"

No answer.

"Dear me," exclaimed the professor, scratching his ear meditatively. "Who was Henry Wilson?"

The members of the class stared blankly at each other.

"Who was William A. Wheeler?"

Not a peep.

"My young friends," said the professor, looking smilingly at him, "this is warning to you if you ever enter political life. Each of these gentlemen I have named was at one time Vice-President of the United States. The class is disillusioned."—[New York Evening Post.]

SNAP SHOTS FROM TEXAS. As a general thing you can tell by the kind of automobile a married man buys whether he or his wife is the boss.

Our position simply is that something ought to happen before next Christmas to reduce the high cost of giving.

Just to look at a girl perched up on French heels you wouldn't guess how she can kick when she gets her house slippers on.

Our experience with the telephone operators is that it's mighty hard to make them come when they are called.

Also we bet a man's second wife doesn't laugh at his old jokes like his first wife did.

Another reason why our butcher and baker are hurrying to reduce their prices is because a bald-headed man can't get a scalp.—[Galveston News.]

RIPPLING RHYMES.

TIME PASSES.

Full soon the blizzards will be popping and hanging snow on our brows, and we'll be asked to do our shopping as early as the law allows.

It seems no time since bells were ringing proclaiming Christmas peace once more, that happy time when dad was bringing a ton of groceries from the store.

It seems no time since old Kris Kringle propelled his silver through the night; the echo of his sleigh bells' single seems all around me as I write. And now we're facing winter burly and soon each sheet at which I glance will say, "Please do your shopping early and give the weary clerk a chance."

No doubt the children think the seasons have much like small or terrible record; but we old lads have sundry reasons for cursing Time's indecent haste. A summer's gone before we know it, an autumn smiles and then it's through, and even a highly moral poet is moved to language warm and blue.

The sexton to his rope is clinging to ring in Christmas joy and cheer; and soon the old fog will be ringing some other bells—and we won't hear. The sky is gray, the wind is early, more desolate the landscape grows; oh, let us do our shopping early and give the away-backed clerk a reprieve. WALT MASON.

The American's Creed—for you and me.

NOBLESSE OBLIGE

By John Strong

THE KERNEL.

Noblesse Oblige is not a NEW gospel.

It is the concentrated essence of all the gospels of human progress.

It is the right to hold fast in the soul all the good impulses, however aroused or created.

It is the hitching-post on which to the down and keep our souls from vagrancy.

It is the "meat in the cocoon" when the shell of words is forgotten.

It is the kernel when all the husks of language and rhetoric are erased. Science says the earth could be compressed into a very small tube if all space between atoms were obliterated.

Similarly, about all that has ever been said or written as a guide to human life is living faith in common SERVICE COUNCIL TODAY.

The November council of the Council of Community Service will be held this evening at 8 o'clock in the auditorium of the Ethel Club.

The milk and maintenance fund, summer vacation camp, the Community Thrift Shop, and the maintenance of loan and employment bureau will be discussed.

DO NOT DODGE DIFFICULTIES.

A. T. Stewart, the famous dry goods merchant, liked to engage men who had failed in business. He reasoned that their difficulties had probably been their strength.

Difficulties develop character. Difficulties help to make a man just as blows help to make steel.

Mothers' darlings who are shielded and petted and pampered rarely amount to much.

Estimate the careers of the hundred foremost business men in America and you will find at least 80 per cent of them had to battle their way against extraordinary difficulties.

Any twenty-dollar-a-week clerk can discharge easy, routine duties.

Coleman du Pont, whose achievements have been numerous, many-sided, once explained to the writer that his interest in any enterprise waned immediately he had overcome all the difficulties of organizing and putting it on a smoothly-working, successful footing. When one undertakes reaching the easy stage, then he turns to something new, with new and difficult problems.

Edward L. Doheny, now perhaps the foremost oil figure in the world, is similarly constituted. When he had developed a property to the money-making stage—when, as he once remarked, "there was nothing left to do but draw in the profits"—then he sold out and started on a new quest, eager to pit himself against some new and difficult situation.

There is more joy in putting forth effort than in gloating over easily won profits.

Difficulties make men. But men make difficulties.

It is harder to climb than to stroll along level road or dawdle down hill.

Difficulties are stepping-stones leading to the top.

Therefore, do not dodge them. Do not run away from them.—[Forbes.]

FAULTY

PEN POINT

BY THE STAFF

"Never touched me."

W.J.B.

It is admitted that there is another Democratic candidate in 1924.

It takes a smaller man to be the home to buy an automobile than it used to.

The Democratic newspaper is interesting studies in these days.

Legion says that there is no end of Bolshevism while we wait.

Lauren Peak is again in California that "Columbia" California election result.

Why do some folks think that a shot, war when we cannot stop automobile accidents?

We are looking almost every for the name of Mink in the dispatches, or was it Pink?

The duck and quail season resurged a lot of the leather coats we saw last fall.

But as a general thing the who talks the loudest on the corners slugs lowest at home.

President-elect Harding says it is unboasted. That is a mighty thing for a married man to say.

If Edison can produce that to commensurate with the fact might try it on James M. Cox.

Why not have a closed season on the shooting of craps? After every other sort of game is protected.

The per capita currency of the country is \$51.04. But how many fellow who hasn't that amounting to get it?

The Japanese have let us call on "enjoyment tax" something of that kind would be established over here.

Almost 100,000 Republicans sorry for Harding and Coolidge Los Angeles county. What a fearful climate we have!

What has become of the national political firm of Murphy, part, Brennan, Nease & Co. were the assets and liabilities?

Reverend, Ireland, is to be world's fair in June. It will be a good place to go for those who no luck with the home making.

With President-elect Harding, Paul, Ireland, Tex. he has a million to go to get across the and say to our Mexican "Howdy."

A lot of sixteenth who are just the stuff out of which the Harding campaign made are shouting their best to attract attention.

Prince Paul, who is to be King of Greece, is but 14 years, but he is old enough to be killed and that is the only thing can be put to them.

In the presidential election the Democratic party got left out of the reckoning into the game on a whim. He won't be allowed to vote.

The laundry women have learned. They have not yet of returning a shirt with buttons, but they have learned to stitch it to the neck.

Will President-elect Harding his foot down on the legislature. That was one of the things that will be recalled that the legislature would not allow the legislature.

The Republican party is today on the one great issue for Americans. To the president and never again ready to help the needy, measures of force. And the Democrats are standing by.

The anti-labor legislation will be brought to the floor of the League of Nations. The Japanese government thinks that this country will be determined by a council of powers.

The Italian courts have sentenced Alfredo Cocchi of the Italian Congress in New York City to any, 1917, and sentenced to twenty-seven years in the state. Wonder what the jury would have done if they had to punish a murder case.

March 4 was chosen as election day because the day falls on Sunday. It has been but four times in our history that a presidential election was held on March 4, 1840; the third inauguration of Hayes, 1877; and the fourth inauguration of Wilson, 1917. It will not occur again until March 4, 1940, and March 4, 1972.

AS A MAN THINKS "Whatever things are true" "Whatever things are true" "Whatever things are true" All these blessings are true. Things of "good report" are true. And with all this "good report" For there is both "good report" and "good report" Which will make them true.

Now the way to have "good report" is by thinking "good report" For by entertaining "good report" You have put the "good report" in your mind. —T. F. Whitford

TRADES SCHOOL WINS APPROVAL

Leading Business Men to be at Tomorrow's Meeting.

Urgent Need for Institute's Told by Merchants Here.

Counsel Hill Tells How to Carry Out Plans Legally.

Leading business men representing practically every activity in the city are expected to attend a meeting at 4 p.m. tomorrow at the rooms of the Merchants and Manufacturers' Association, at which the details of the Institute of Technology to be run by the city Board of Education will be fully discussed. A large number are interested themselves in the proposed institute and all familiar with the details are enthusiastic over the proposal.

For several months the Board of Education has been considering the opening here of such an institute. Dr. Louis D. Ireton, chairman of the Board of Education, and the Trade School Development for the United States and Canada, spoke before the members several months ago, and told of success at other points. He said graduates from the schools in other cities are all getting along nicely, and the work is so good that hundreds of journeymen attend the institute's evening and Saturday afternoon classes to learn more of the technique of their own trades.

BOARD IMPRESSED. Shortly after Dr. Ireton's talk the directors of the Merchants and Manufacturers' Association became interested and made a canvass of the business houses to learn the number of those who are vitally interested in the subject, and the report shows that there is a shortage in practically all the skilled trades, and that technical learning in all trades and vocations is badly needed. Members of the Board of Education, declared themselves much impressed, and are considering ways and means for providing the institute. Melville Doster, chairman of the committee of the whole, is particularly interested in the subject, and is urging the board to make plans for the establishment of the Board of Education should make plans at once for vocational training. He is president of the California Retail Jeweler's Association, and says that body has passed resolutions strongly endorsing the operation of vocational schools. The jewelry business was hard hit by the war, he declared, and there are no watchmakers or jewelers to be had. There is a great demand for men and women experienced in the jewelry business, and he is sure that if a school is established where these trades are taught, the graduates will find ready employment.

WILL BE BENEFICIAL. Vocational training in the public schools, on an extensive line, will prove beneficial to the nation, the young men and women, and every one concerned, in the opinion of J. M. Green, city superintendent of the Western Union Telegraph Company. Mr. Green believes that the Board of Education should adopt the plan submitted, and that every citizen should get in and help make the school a success.

Definite plans for the establishment of the institute have not been completed by the Board of Education, as the members first wished to obtain an opinion from County Counsel Hill as to its legality. This was furnished last night when the legal adviser of the board said the plan of those behind the institute may be carried out within the scope of the law providing for secondary schools of the State, if there are certain modifications in the plan. One of these is that the technical school would have to be confined to the general scope of high schools and junior colleges in matters not exclusively technical. The counsel also suggests that the board confine itself to the establishment of one or two technical schools and not endeavor to concentrate upon an "Institute of Technology."

What may practically be designated as a technical school and the question of finances are the two important items, the counsel states.

Caught Taking Clothing from Store Counter.

Arrested while in the act of stealing clothing from the counters of a Broadway department store late yesterday afternoon, Russell B. Clark, 28 years of age, and his wife, Veronica Clark, 25 years of age, were locked in the City Jail by Nick Harris detectives. The couple confessed, the police say, and stated that they were out of funds and needed the clothing. According to the Harris detectives a large number of blank checks on banks in Long Beach, where the couple live at 146 American avenue, were found in Clark's pockets. An investigation is being made to learn if he is wanted in that city. The two are held here on grand larceny charges.

SCORES SHAKEN UP BY DOWNTOWN COLLISION

RED TRAIN AND YELLOW CAR BUMP ON HILL STREET. TWO ARE HURT.

Scores of persons were badly shaken and two were slightly injured late yesterday afternoon as the result of a rear end collision between a Pacific Electric Santa Monica train and a Los Angeles Railway West Adams-street car. The collision took place at Third and Hill streets and a traffic jam resulted that tied up the two streets for half an hour. Miss Sylvia Carava, 18 years of age, of 153 Avenue 18, a passenger on the Santa Monica car, was treated at the Receiving Hospital for injuries about the hips and bruises about the legs. She was later removed to her home. W. B. Sampson, 50 years of age, of 2123 Mission street, riding on the yellow car, was lacerated about the face. According to the police, who made an investigation of the accident, faulty brakes on the Pacific Electric train caused the smash.

Best in Dry Goods Since 1878

Oldest Dry Goods Store in Los Angeles

Coulter Dry Goods Co.
Founded in 1878
Seventh Street at Olive

This store will be Closed all Day Thursday—Armistice Day.

Our Entire Stock of Draperies Cut 25%

(Excepting Only Pillows, Scarfs and Felt by the Yard)

Offering unlimited possibilities to owners of homes old and new for fresh draperies at prices within the reach of anyone's purse:

FOR the epicure, a visit to Young's Principal Store, 214-218 Spring Street is a veritable inspiration in suggestions of good things to eat.

As you walk down the aisles of this complete Grocery Department, the finest food products of our own and other lands invite your eye and palate. For breakfast, luncheon or dinner—whatever your fancy dictates—here at Young's you always will find the supremely good in that particular food.

Among the table delights on Young's Grocery shelves are some which bear our own label. Particularly delicious this year are Young's sweet spiced pickled figs, in ten-pound kits. Sent anywhere, and a most welcome gift for the holiday tables of your folks "back home."

Young's Grocery Department adheres to the same policy that governs every other department of this great organization of nineteen stores—the policy of "Quality Goods at Fair Prices." In both staple and fancy groceries you always are sure of finding at Young's the best the market affords—at a cost no greater than elsewhere.

NEW DISPLAY OF TANLAC BIG HIT

Unique and Attractive Display Attracts Much Attention.

Work of One of America's Great Lithographic Artists.

Cost \$60,000 to Produce—Beautiful Scenes Shown.

An advertising display which has attracted unusual interest, has been placed in the show-window of the Owl Drug Company, Fifth and Broadway, in this city, the local agency for the well-known and highly successful proprietary medicine, Tanlac.

The display is not only interesting from an advertising standpoint, but is educational, combining in an attractive and artistic manner beautiful scenes from many foreign countries where the ingredients of this preparation are obtained.

It has occasioned such favorable comment in the city that the proprietors of the store state that it will remain in their window several days longer.

Work of Great Artist
The display is the work of one of America's greatest lithographic artists and the manufacturers of Tanlac state that the total cost of the display is a record price for window displays. It is in fact distinct and natural colors, and presents scenes from the Rocky Mountains, as well as from Europe, Asia, Persia, Egypt and other foreign countries.

The natives are seen in their natural habitat and environment, gathering the roots, herbs and barks that form the medicinal ingredients of Tanlac, packing them upon the backs of camels, elephants, llamas and other beasts of burden for transportation by land and sea to the immense laboratories at Dayton, Ohio, and Walkerville, Canada.

One of the most striking features of the display is the reproduction of the magnificent laboratory at Dayton, Ohio. Here the artist has very effectively and impressively portrayed the popularity of Tanlac by introducing a group of people in all walks of life, who are looking at the Tanlac laboratory with expressions of confidence, plainly indicating their belief and faith in the medicine.

Another distinctive feature is the bulletin accompanying the display. They tell briefly and completely of the marvelous growth and development of Tanlac, until today it has the largest sale of any medicine of its kind in the world. These bulletins also quote various standard medical authorities as to the therapeutic value and physiological effect of the medicine.

60,000 Bottles a Day
From these bulletins one also learns that the new Tanlac laboratories at Dayton and Walkerville have a combined daily capacity of 60,000 bottles and that the medicine is now selling at the rate of approximately 10,000,000 bottles per year.

That Tanlac is a preparation of exceptional merit has never been displayed, which accounts for its tremendous popularity and large sales throughout the country. It is a powerful reconstructive tonic and body-builder and has a far reaching and most beneficial effect upon the entire system. Many strong local endorsements, from those who testify to its benefits, they received have appeared in the columns of this paper.

The manufacturers of Tanlac are firm believers in newspaper advertising and have forebly presented to the public the merits of their product in this way. Their total annual appropriation for newspaper space exceeds one million dollars. Their copy appears in practically all of the leading daily and weekly newspapers throughout the United States and Canada.—(Advertisement.)

News from South of the Tehachepi's Top.

DENVER VISITOR FALLS TO DEATH

Body Plunges from Cliff to Sea Near Long Beach.

Officers Have Lively Chase After Prowler.

American Legion Post Buys Site for Home.

(SPECIAL DISPATCH)

LONG BEACH, Nov. 8.—Just after he passed the remark that he had fished from the same spot fifteen years ago, William Shaw, a retired Denver (Colo.) manufacturer, fell into the sea at a point on the coast between San Pedro and Redondo and was dead when pulled from the ocean by friends late yesterday. The body was brought to this city today and will be sent to Denver for burial.

Mr. Shaw, accompanied by his wife, came to Long Beach last Sunday afternoon to visit his friends. He lived at 3800 East First street. With a party of friends, Mr. and Mrs. Shaw yesterday paid a visit to a certain rock bass fishing ground on the coast. The party was composed of several members of the party saw Mr. Shaw suddenly slip and fall over the bluff into the sea. It is believed that he was killed by striking his head on a rock in the ocean as his lungs were not filled with water, indicating that he did not drown.

Mr. Shaw was head of the Shaw Pneumatic Tool Company of Denver. He was a York Rite Mason and Shriner. In addition to a widow, the deceased leaves a brother, C. H. Shaw, and three sisters, Mrs. Greenfield, Mrs. A. M. Stewart and Mrs. Edward Opel, all of Los Angeles.

EXCITING CHASE
Following an exciting chase from door to door, John Lee Dalton, with numerous aliases, was captured by a squad of local police today in the Marine Bank Building, placed in jail and held for investigation. The prowler was first seen by the engineer of the building, who quietly telephoned the police. Officers Roberson, Worley, Reusch, Dargatz, Penner and McConaghy answered the call, surrounding the building to cut off escape. Dalton was finally cornered in a closet in a physician's office.

At the police station the prisoner stated he had never been arrested before. Fred B. Kutz, superintendent of identification, however, found records of sentences alleged to have been served by Dalton in San Diego, San Francisco and other cities and showed them to the latest guest in the municipal jail. Vagrancy, petty larceny and burglary were among the charges.

HOME FOR LEGION
A site for a permanent home for the local post of the American Legion was purchased by that organization today. The proposed new \$75,000 home will be built on a lot on the southwest corner of Seventh street and American avenue. Los Angeles architects are completing plans of the structure.

(SPECIAL DISPATCH)

SANTA MONICA, Nov. 8.—Mayor R. L. Berkeley of Santa Monica, who is attending the convention of California Municipalities at Chico, is urging that the next convention be held in Santa Monica. Word has been received from him to the effect that the prospects of Santa Monica's entertaining the league is very bright.

It is the desire of the city officials that the municipal auditorium which will be completed by the end of next summer, be used by the convention.

PREDICTS EARLY FRUIT SHIPMENT.

POMONA ORCHARDS HOLD BIG CROP; OTHER INTERESTING NEWS NOTES.

(SPECIAL DISPATCH)

POMONA, Nov. 8.—Pomona Valley will ship oranges to the Eastern markets December 1, according to R. L. Knox, manager of the San Antonio Fruit Exchange, who said today that prospects were good for an early beginning of the navel shipments. The local exchange is looking forward to a big year—in amount of fruit shipped and returns. There is a heavy crop in all the groves.

(SPECIAL DISPATCH)

JUNIOR FOOTBALL.
Grammar school football teams, which have been playing practice games to get into condition, will begin work in earnest this week. A schedule has been arranged, and the winner of the series will be presented with a silver cup, donated by Mayor W. A. Vandegrift for the best grammar school football team in the city.

(SPECIAL DISPATCH)

DELEGATES ARRIVE.
Some of the delegates who are to attend the thirtieth annual convention of the Southern California Sunday-School Association, which convenes here Tuesday for a three-day session in the First Baptist Church, have arrived, and before 10 o'clock tomorrow morning the city will be the host to between 1000 and 1500 delegates from all parts of the southern part of the state.

The first delegates arriving came from the Imperial Valley. The housing of the delegates will be made under the Harvard plan, under which they are domiciled in

TO MARKET FISH.

Co-Operative Association May Mean Cheaper Food.

(LOCAL CORRESPONDENCE)

LOS ANGELES HARBOR, Nov. 8.—Fishermen here are up in arms over the alleged unfairness of prices that they receive. As a result of the dissatisfaction and a half a pound that the same fish are sold to the consumer at from 15 to 25 cents a pound.

As a result of the dissatisfaction the aid of the Chamber of Commerce here has been solicited and upon a suggestion made by it a co-operative marketing association has been formed which takes in forty-eight San Pedro independent fishermen.

This afternoon a committee from

RIVERSIDE AFFECTED BY ALIEN LAND LAW.

LOCAL CORRESPONDENCE

RIVERSIDE, Nov. 8.—One effect of the alien land law approved at the election will be to terminate the lease of the city's sewer farm, held by a Chinese company, one year before the expiration date named in the agreement. The city is receiving a revenue of \$2500 per year under the present lease, and the land is being reclaimed by the spreading of sewage in the preparation of soil for truck gardening. Heretofore no one has come forward with an offer equaling that which the Chinese were willing to make for the privilege of farming the land.

FIND DRAFT EVADER.

Much Sought San Diego Youth Under Arrest.

(BY A. P. Staff Writer)

SAN DIEGO, Nov. 8.—Cecil Stewart, 24, formerly of Los Angeles and San Diego, was arrested today in St. Louis and will be brought to this city to answer a charge of evading the draft, according to Dave Gerston, in charge of Department of Justice agents here. Stewart, according to Federal officers, was employed as stenographer in the office of the Los Angeles City Engineer at the outbreak of the war. When conscription appeared imminent, he is alleged to have come to San Diego, visited for a few days with his father, Elmer Stewart, here, and then gone to a ranch near Escondido, Lower California. When located there and a request made to Gov. Stephen Cann for deportation, Stewart's father is said to have provided him with funds to go to Santa Rosa, thence to Sonora, and various other parts of Mexico. Recently he is said to have returned to the United States and reported to have been arrested in St. Louis today.

(LOCAL CORRESPONDENCE)

WOMEN STILL BUSY.
SANTA ANA, Nov. 8.—The community property law was voted down in California, but the club women of the state who proposed it are undaunted, and will make an effort to get a similar law passed by the next Legislature, according to Mrs. A. J. Lawton of Santa Ana, legislative chairman for the club women, who was today making plans to call club women together for decisive action. It is her plan to have the matter taken up to the Legislature by the women workers through the various Assemblies and State Senators. Mrs. Lawton alleges the "power of money" was the fact that caused defeat for the community property law last Tuesday.

Disinfection Fight to Keep You Well

Enlist the powerful ally that will fight for you against the ever-present menace of disease germs.
Proper disinfection fights successfully to keep you well and protect you from attacks of contagious disease.

Lysol Disinfectant
Wherever applied, Lysol Disinfectant exterminates germ life or prevents its creation.

In the office: Have Lysol Disinfectant sprinkled regularly in toilet-rooms, dark corners, cuspidors.

At home: Have Lysol Disinfectant sprinkled in sinks, drains, toilets, dark corners, garbage cans.

Have a little Lysol Disinfectant added to all scrubbing water.

A 50c bottle makes five gallons of powerful disinfectant; a 25c bottle makes two gallons.

Remember, there is but one genuine Lysol Disinfectant—made, bottled, signed, and sealed by Lehn & Fink, Inc.

Lysol Toilet Soap 25c a Cake

Contains the necessary proportion of the antiseptic ingredients of Lysol Disinfectant to render the soap germicidal. It is also refreshingly fragrant, lathers easily, and does not irritate the skin. Ask your dealer for it, and him to order it for you.

Lysol Shaving Cream 15c a Tube

Contains the necessary proportion of the antiseptic ingredients of Lysol Disinfectant to render the cream germicidal. It is also refreshingly fragrant, lathers easily, and does not irritate the skin. Ask your dealer for it, and him to order it for you.

Some Experts Think Carpentier Not Easy for Dempsey.

FRENCH CHAMP MAY FOOL 'EM.

Carpentier's Chances Against Dempsey Sixed Up.

Some Local Experts Think Well of Foreigner.

Cite Surprises in Other Big Fistic Clashes.

BY ED O'MALLEY.

Now that the heavyweight title champions of America and France have come to a bona-fide agreement to meet for the world's title, followers of the game are beginning to give the scrap a more than once over.

In circling about sporting headquarters and asking a number of experts their opinion of the outcome of the clash we were surprised to find some who gave the Frenchman a good chance, supplementing their leaning with decent reasoning.

An old-timer, who has witnessed a few of the top-notch mix-ups, called attention to the fact of the sad awakening of those that became wedded to the belief that it was next to impossible for Bob Fitzsimmons to mistreat Jim Corbett at Carson City.

He also cited the astounding victory of Gentleman Jim over John L. Sullivan, when nine out of every ten members of the fancy believed that Corbett wouldn't put a glove on the Boston boy.

Another veteran devotee of fistic drama on the surprise party Young Corbett swung on the champion of that "bumma tornado," Terry McGovern, who many believed at the time, was simply invincible.

NOT A FOOL.

Said he—George Carpentier is

nobody's fool and I am beginning to believe that if he has it in his head he can beat Dempsey he will enter the ring with a confidence that will be hard to shake. I have an idea that the foreigner has carefully studied Jack's offensive style and has quietly gone about it to devise some way to cross it."

A local sportsman who thinks the Frenchman has a good chance and who saw both of Young Corbett's tilt with "Terrible" Terry gives the following little line of talk as the basis of his opinion:

"Many of the wisest authorities on the game were unable to fathom how 'Young' Corbett could withstand McGovern's cyclonic rushes when the lads met for the first time at Hartford, Ct. How well I remember how Corbett bided his time, gamely standing the gaff of several of Terry's rushes. Then, slyly setting himself with right close to his body he caught the Irish boy with a terrific right uppercut to the chin as he made one of his famous bull rushes and the deed was done."

ON SAME LINE.

"Now, Dempsey battles much on the style of McGovern. He is a fast, tearing-in rusher and depends much on his quickness to sting his man good and hard before the clinch. Who knows but what the Frenchman may swing another Young Corbett—weather a rush or two, and then, keenly on the alert, shoot a right uppercut to the jaw that would find the mark good and sufficient. There may be more truth than poetry in this and many a good ringman has been toppled over just when he thought he had a dead clinch in front of him."

CHARLES STONEHAM RE-ELECTED PREXY.

JERSEY CITY (N. J.) Nov. 8.—Charles Stoneham was re-elected president of the New York National League Baseball Club at a meeting here of stockholders of the National Exhibition Company, which operates the club.

RODGERS TO BOSS SENATORS AGAIN.

(BY A. P. MONT WIRE.)
SACRAMENTO, Nov. 8.—Lewis Rodgers, owner of the Sacramento Coast League club, announced today that William K. Rodgers had been signed to continue as manager of the Senators next season.

ARE SET FOR SERVICE CRASH.

(Continued from First Page.)

out to U. S. C. yesterday afternoon and sent them through a scrimmage with the Trojans.

Anyone who watched the performance could not fail to note the huge scale of improvement which has taken place in two weeks time that being about the period when Coach Ingram last had his men on the field.

LIKE A REAL TEAM.

Then men are in better condition the backs run true and hard, and the line works with swifter precision. If the Army beats this gang of hard-rock young men, it will be after one of the most fearful battles ever played at Tournament Park.

Lieut.-Commander Manahan, fleet athletic officer; Lieut.-Commander West, and several other lights of high and low degree in the Navy were on hand to watch their favorite work.

Just how seriously the Navy regards the forthcoming battle may be summed up in the words of Dr. Kaveney: "Our reputation is at stake. We've got to win the game."

The doctor yesterday received word from the Multnomah Club of Portland, agreeing to a game on December 4. The fleet eleven will meet the Olympic Club at San Francisco on Thanksgiving Day, leaving here next Sunday on two destroyers.

WHITE IS AFTER LEONARD.

(EXCLUSIVE DISPATCH.)

White's services are more in demand at the present time than they have ever been before. This despite the fact that many believe that he is on the decline. (By the way, last two weeks he has received ten offers to box throughout the country, but he has accepted only three because the purses proffered did not come up to his expectations. His first battle will be November 14 at Seattle Wash., the next in the same town and the third December 8 at Portland, Or.

Milwaukee is after White's services for a clash with Benny Leonard, champion lightweight, some time in December or soon after January 1.

LONG BEACH HAS A POWERFUL ELEVEN.

When the Long Beach and San Diego High School eleven hook up on the Long Beach gridiron next Saturday, fans will get a good line on the possibilities of last year's State champion to repeat.

Judging by the scores which Long Beach has run up so far this year, Eddie Kienholz's team seems to be just as powerful as the 1919 eleven. In San Diego, the near-by seashore will find a rival well worthy of their prowess. The school where Muller, Spratt, Majors and others of the 1920 stars on California's great team hall frolic is said to have an aggregation of beefy young men who will make the going fierce for all rivals.

GEORGIA TECH MAY CUT CENTRE OUT.

(BY A. P. MONT WIRE.)
ATLANTA (Ga.) Nov. 8.—Georgia Tech and Centre College may not meet on the football gridiron next year. Dr. J. B. Crumshaw, athletic director at Tech, declared today in announcing that he had sent a telegram to Prof. Frank Rainey, faculty

chairman of athletics at Centre, asking whether newspaper articles criticizing the playing of the Tech team in the recent game between the two institutions "represent feelings and opinions of your college."

Tom Andrews wants to put on this show and probably will land it if the boxers do not demand too big a purse.

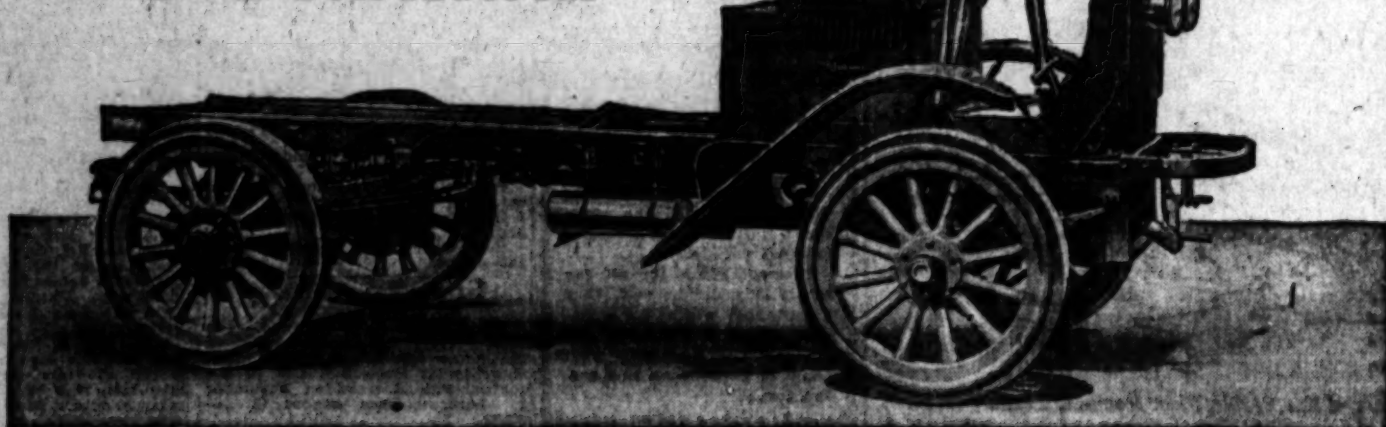

The local lightweight declares he has not given up hope of acquiring the championship and says he would like to meet Leonard in a fifteen round fight at New York where decisions are allowed because he figures if the bout goes the distance he will have a chance to win the referee's decision. He has great confidence in his ability to beat the champion and is waiting for word from Billy Gibson giving him a return match.

Wherever there's a road

WHY do men turn and look?

You have observed that owners are unusually proud of the Essex. They manifest it in their speech, their driving and the particular way in which they care for their car.

Such enthusiasm is natural to all who know it. You catch some of its influence if you watch the Essex and the owner in action.

Haven't you noticed how Essex drivers seem to fit in with the action of the car? They are alert and confident. The Essex responds to every whim of the driver. It glides as smoothly as a canoe drifting down stream or rushes silently by with the speed and freedom of a bird.

THE ESSEX IS FAMOUS FOR BEAUTY AS WELL AS PERFORMANCE

It is not merely that Essex matches large, high-priced cars in comfort; not only its speed, quick-

ness of getaway and easy mastery of the hills.

Essex charm lies in the combination of its qualities of beauty and fineness with a flying smoothness of action and a responsiveness that heads its lightest touch.

The wide business uses for which the Essex Roadster is adapted are instantly apparent. It is especially suited for salesmen. Though large, the Essex is commodious. There is plenty of room for passengers, and special arrangements for carrying sample cases.

And it needs only limited parking space. Owing to splendid form and recognition of the attractions of the Essex roadster, we are very fortunate in having a supply ready for delivery. Our order was placed with the factory early and you reap the benefit.

MAJOR LEAGUES GET DEATHBLOW

(Continued from First Page.)

Inception in the 1919 world series scandal. After eight members of the Chicago White Sox had been indicted for alleged participation in the throwing of games, a letter was sent to all club owners by William Veeck, president of the Chicago National League club, John McGraw, of the New York Giants; Barney Dreyfuss, and others telling them that "it was time for a new deal in baseball, with a new governing body." This letter outlined the plan proposed by A. D. Lasker of the Chicago National League club and which called for a civilian tribunal. Later, at a meeting of the eight National League clubs and the three American League clubs siding with them, the plan was approved and the other five American League clubs notified they could come in or the eleven clubs would form a new twelve-club league.

Meetings were called for today by both factions, the clubs backing Johnson previously having countered with a proposition that each league appoint a committee of three to confer with a like committee from the minor leagues. ELEVEN REFUSED. The eleven clubs refused to change from the original stand and when their final ultimatum, issued at 3:30 p.m. today, was not answered, went ahead with their plan. Lack of a chairman for the National Commission for many months, the baseball scandal and the unity of the three American League clubs for Dan Johnson were contributory causes to the formation of the league. The three clubs joining in the plan have opposed Johnson in league affairs for years and nearly disrupted the league last year. They charged Johnson with being the "Car of baseball," while the clubs friendly to the American League president countered with charges that the proposed reorganization was merely a plan to depose Johnson. The following statement

was issued by the eleven club owners forming the new league: "To the American Public: The eleven clubs which were signatory to the resolutions adopted at a meeting in Chicago on October 18 met, according to the call of the resolutions, this morning. Mr. Clark Griffith and subsequently Atty.-Gen. W. Miller, representing the directors of the American League, addressed the meeting, stating that the five dissenting American League clubs could not attend a joint session of club owners where majority rule in interclub affairs would prevail.

PROPOSED THREE. "They proposed that the five dissenting clubs appoint a committee of three to meet with a like committee to represent the National League for the purpose of subsequently meeting a committee of three from the minor leagues to draft a plan for the reorganization of baseball. "These eleven signatory owners stood on the fundamental principle that under the old system of inter-league affairs being controlled by league votes selfishness and politics had crept into the game, resulting in scandals on the playing field, and that in all matters that were not strictly league affairs clubs should vote individually so that their responsibility to their constituents and their local public could be marked.

PLEAD HARD. "For several hours the eleven club owners pleaded with Messrs. Griffith and Miller to bring the other four members who were holding out into the meeting. It was made plain that the whole object of the joint meeting of owners was that baseball be reconstructed on such a high plane as to merit public confidence and that a control of baseball be established of men of such caliber as to command public respect. "It was emphasized that each club would have one vote and that the suggestions of each club would be fully considered. It was felt by the eleven owners that, so long as the league voted as league, the selfish interests of each league would be paramount in interleague affairs and that it was only selfishness in interleague affairs with no advantage to any league or club that the control of baseball could be put

on an altruistic and impartial basis. FAIL TO RESPOND. "The five dissenting clubs were given until 4 o'clock to appear in the meeting, but, failing to be present, the eleven signatories proceeded with the formation of a twelve-club league as provided by the resolutions of October 18. This league will be known as the New National League and John A. Heydler will continue as president, secretary and treasurer. The teams comprising the league are:

"The Boston Braves, the Boston Red Sox, Brooklyn, Chicago Cubs, Cincinnati, Chicago White Sox, New York Giants, New York Yankees, Philadelphia, Pittsburgh and St. Louis. "It was agreed that the twelfth club should be the first of the five dissenting American League clubs, who would apply for membership. Failing to receive such application within a reasonable time, a twelfth club is to be established by the new National League, and it is not the intention that minor league territory be invaded. "The meeting then proceeded to reaffirm its acceptance of the Lasker plan of baseball reorganization, which, with slight modifications, was formally adopted. The chief modifications being that the minor leagues should be requested and permitted to choose an associate member of the board of control of their own selection.

"Hon. Kansan Mountain Landis, judge of the District Court of the United States for Chicago, was unanimously tendered the position of chairman of the board of control for a term of seven years, at an annual salary of \$10,000. A committee waited upon Judge Landis to tender him the position, which tender, after an extensive discussion with Judge Landis, is now under consideration. "The Lasker plan provides for the appointment of two associate members of the board of control, neither of whom was elected. A committee from the meeting has gone to Kansas City to tender the minor league members of the board of control. The third member, whose term will be five years, was not chosen, pending Judge Landis' acceptance of the chairmanship of the board of control.

Over sixty million breakfasts with Maple Karo last year

Does it interest you to know that Maple Karo outsells all different kinds of maple syrups? Delicious flavor—moderate price the reason

Two big reasons stand out for the record breaking sales of Maple Karo.

First—the flavor of Maple Karo is not an "imitation." The makers are the world's largest users of the purest and best flavored maple sugar.

Over a thousand tons are brought annually from Vermont and Canada—where the finest maple trees grow.

This sugar is used to make Maple Karo and to give it its delicious flavor.

The second reason is quite as interesting as the first:

Maple Karo is remarkably moderate in price—selling at a lower price than any other syrup of approaching quality and flavor.

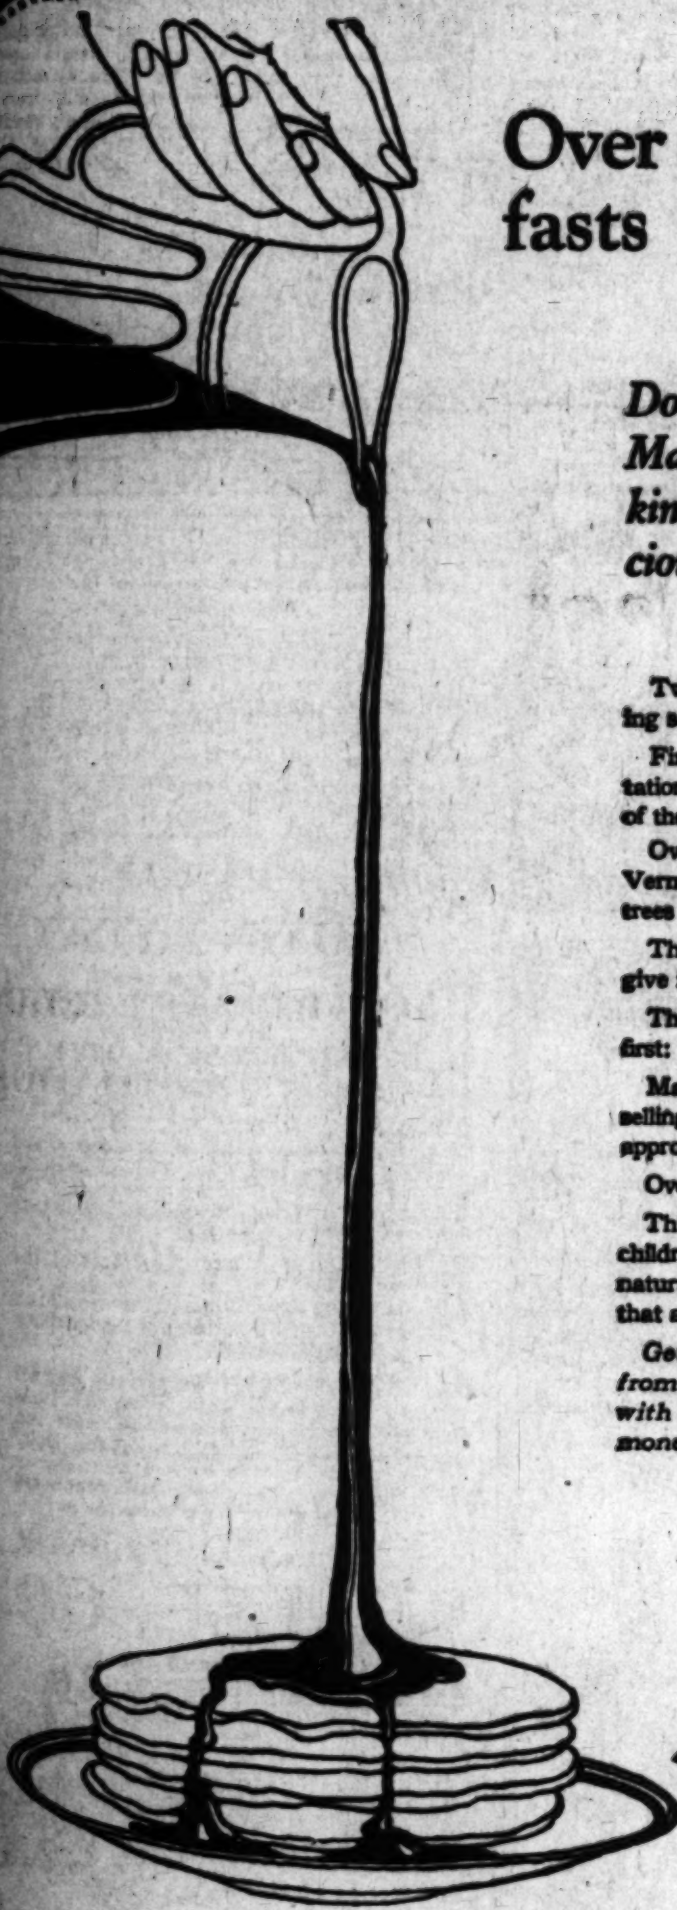

Over five million cans were sold last year.

This moderate price permits you to let the children have all they want. It satisfies their natural craving for preserves and other sweets that are so expensive now-a-days.

Get a can of Maple Karo in the Green Can from your grocer today. If you are not pleased with it, the grocer will gladly return your money.

Guaranteed

The value of a guaranty of any security depends upon the reliability of the company which issues it.

The Guaranteed First Mortgage Certificates issued by this Company have behind them the absolute guaranty of the strongest company of its kind west of New York City with resources of more than \$15,000,000.

They have a greater degree of security than the choicest first mortgages and in addition they are backed by the guaranty of a Company which has always guarded the interests of its clients as jealously as its own.

These Certificates provide a steady income, and may be purchased in convenient amounts from \$100 to \$200,000.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE.)

NEW YORK, Nov. 8.—The stock market was the center of another dramatic selling movement today, every branch of the list yielding to the increasing weight of liquidation at extreme recesses of 2 to 7 points. There were occasional halts and feeble rallies but these were succeeded by fresh offerings in which new low levels were registered. The tone of the market at the close was weak on total sales of 1,300,000 shares.

Among the stocks that suffered greatest impairment were those comprising the shipping, steel, equipment, oil and motor group, but even the gilt-edged railway issues did not escape the general reversal, all save a few of the transactional forfeiting 1 to 3 points. Developments over the week-end played into the hands of the shorts.

The operations of that faction reacted substantially to the day's unsettlement, especially in the volatile industrial and speculative, for which there was a very light demand.

Call loans rose to 10 per cent after opening at 9.

The break in foreign exchange carried sterling down to within 15 cents of its maximum quotation in this market, while French, Italian, Dutch, Spanish and Scandinavian rates were at lowest levels ever recorded here.

Liberty Bonds and Victory notes reacted moderately and the bond market as a whole was affected by the weakness of stocks, rails, industrial and international, closing at variable reactions. Total sales (par value) aggregated \$13,450,000. Old United States bonds were unchanged on call.

STOCK QUOTATIONS IN NEW YORK CITY.

(Published by Louis & Bryson, Members New York Stock Exchange, New York City.)

NEW YORK, Nov. 8.—Following are the closing prices of stocks and bonds on the New York Stock Exchange.

CITY TO FIGHT
COSTLY PHONES.Will Resist Move to Increase
Rates for Service.Five-Year Agreement Doesn't
Lapse for One Year.Company Says Income Does
Not Cover Daily Cost.

The City of Los Angeles will resist before the Railroad Commission, the granting of the application of the Southern California Telephone Company for increased rates, as the result of a resolution unanimously adopted yesterday by the City Council. The resolution was offered by Councilman Farmer, following the reading of a letter from the telephone company, stating its reasons for asking increased rates.

"I believe that a full inquiry should be made into the facts," said Councilman Farmer, "and with the City Attorney appearing before the Railroad Commission, opposing the increase, we can find out the exact situation." President Workman and Councilman Conway declared that they were opposed to the increase.

When the two competing telephone systems were consolidated, the telephone company entered into an agreement with the city, which will expire November 4, 1935, stipulating that the company would operate the property for five years without rate increases.

COMPANY'S DEFENSE.

Supt. N. R. Fowler, of the telephone company, says in defense of the application for increased rates: "The subscribers of the Southern California Telephone Company are the only people in the United States who have continuously received telephone service at pre-war rates."

"Effective November 4, 1935, the date of the termination of this stipulation and agreement, we must stand on our own feet and be absolutely dependent upon our own credit and resources to meet operating expenses and to secure capital for

PISGAH HOME'S
HIT BY REPORT.Sanitary Conditions Are Bad,
County Health Officer
Tells Grand Jury.

Sanitary conditions at Pisgah Home were condemned yesterday in a report made by the county health officer to the grand jury. The home is located in the Santa Susana Mountains. It was founded by Dr. F. W. E. Younkin and now has about seventy-five occupants, including men, women and children. Dr. Younkin recently died and his sons and others are in charge. Conditions at the home are undergoing an investigation by the grand jury, under the supervision of Dep. Dist. Atty. Stafford.

plant extensions in the city of Los Angeles.

"We will require \$2,000,000 in increased annual revenue to take care of the requirements for rendering service in Los Angeles, and we have therefore today filed with the California Railroad Commission, an application for necessary rates to carry on the telephone service."

"This \$2,000,000 is required to meet our operating expenses and financial obligations. This property is operated and kept at its full efficiency without even a penny of profit, and, in fact, is experiencing a daily loss. It is unthinkable that this condition can continue."

"We are not now breaking faith, but are filing this application so that we will not be helpless when our financial backing is withdrawn in November, 1935."

"Let us mutually remember that Los Angeles must have assurance that its telephone development will keep pace with its growth. This requires money, material and men, and only increased telephone rates can make these available. If we are to go ahead, this situation must be solved on the cold facts before the authoritative rate making body, The California State Railroad Commission."

Optical
Headquarters

For more than thirty-three years Marshutz has been headquarters for the best in glasses. Our ever-growing business is testimony of our success in fitting glasses. We specialize in Scientific Eye Examinations.

If You Are Interested in Better and
Easier Housekeeping, See the 6 day

Free Demonstration

of the

Daylight Electric
Washing MachineAt this Store, Beginning Monday,
Nov. 8; Closing Saturday, Nov. 13

This superior washer is constructed on the well-known vacuum principle, the best clothes-washing method ever invented. Let us show you how clothes are "sweated" and washed in a "Daylight". Let us explain to you why aerated clothes are cleaner, whiter, more sanitary.

A factory representative will be on hand to answer questions and explain details of construction. Make it a point to visit this demonstration. You can't afford to miss it if you are interested in progressive housekeeping.

Hamburger's
ESTABLISHED 1881
Home 10063 PHONES Bdwy. 1168

The pleasure experienced in selecting a piano in the Hamburger Music Salons is deeper than the mere joy of purchasing wisely.

"Music is the fourth great material need of our nature—first food, then religion, then shelter, then music."—Bovee.

The Christmas Gift Incomparable
A Doll & Sons Cupid Grand PianoAttractively and Specially Priced in a Notable
Christmas Offer at Only

895.00

The unspeakable joy of the "life-time" gift cannot be better exemplified than in the choice of one of these superlative pianos. The sympathetic responsiveness, the unapproachable purity, sweetness and volume of tone, appeal intensely to both the technical musician and the "lover of music." The price, too, will compel the attention of those who know piano values—it is most unusual, decidedly to your advantage. As weighed against the life-long enjoyment to be derived from the ownership, the initial outlay seems almost insignificant.

Admirably Adapted to Home Use

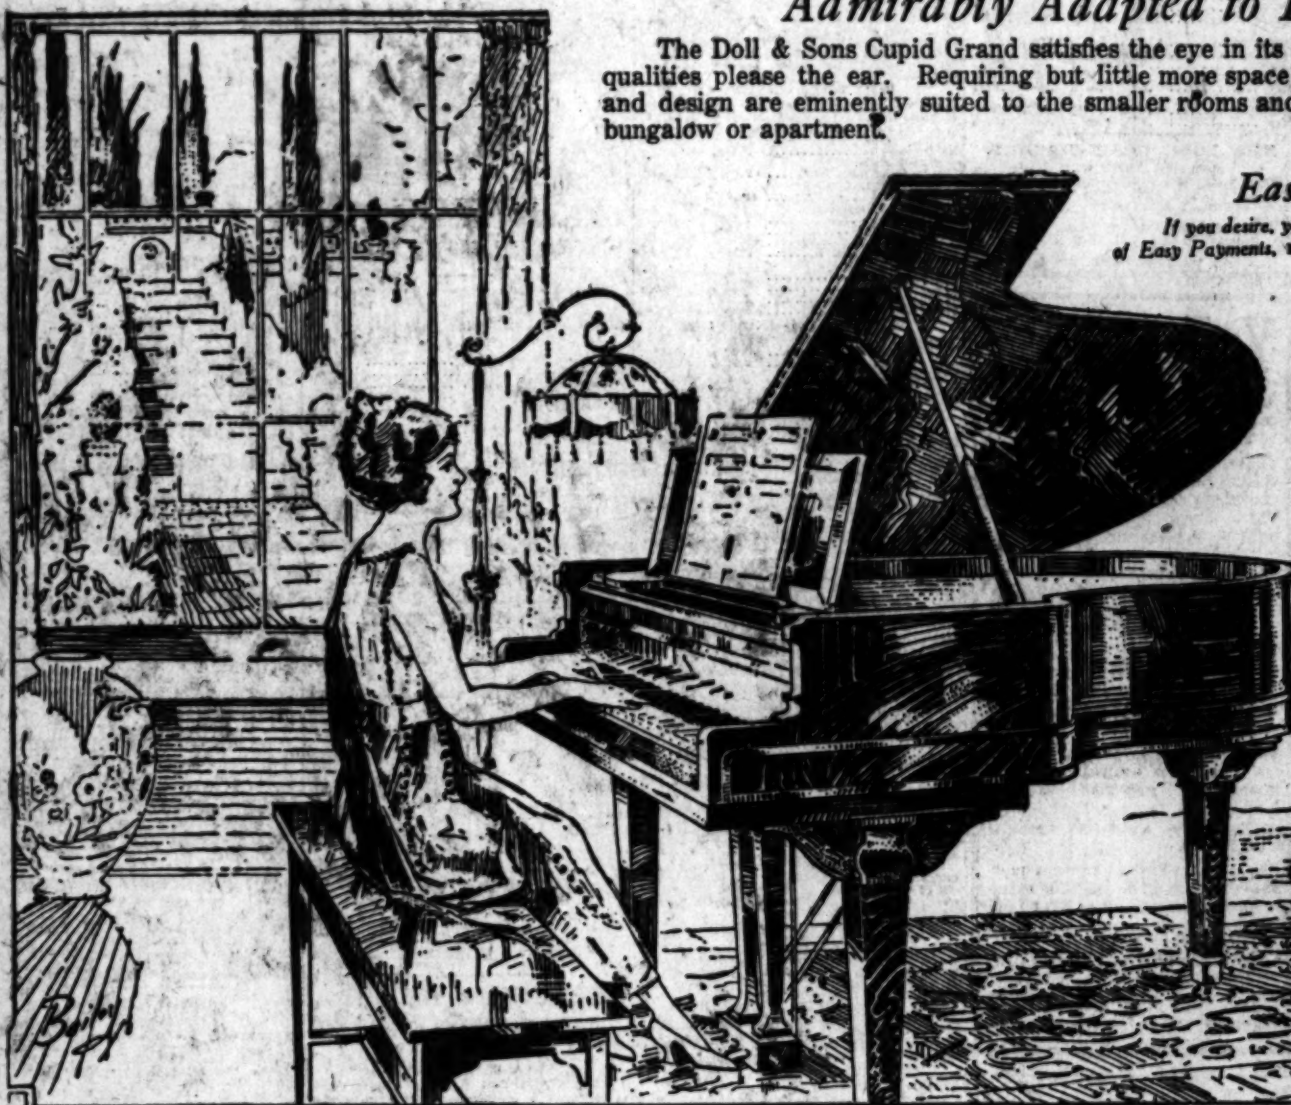

The Doll & Sons Cupid Grand satisfies the eye in its sizes and lines, even as its tonal qualities please the ear. Requiring but little more space than the upright piano, its grace and design are eminently suited to the smaller rooms and lower ceilings of the California bungalow or apartment.

Easy Payment Plan

If you desire, you may avail yourself of the Hamburger Plan of Easy Payments, which you will find interestingly liberal.

Make your selection now—we will deliver any time you desire before Christmas—and your first payment made at time of purchase will be the only one required until after Christmas.

Life-O-Wheat
Saves both minutes and money
It's quickly prepared and each package makes 12 pounds of rich, nourishing food
Everybody likes it—sweet, nut-like flavor of Life-O-Wheat.

\$350 in Prizes

For the best Life-O-Wheat slogan and more than 4 words, we will pay \$100. Send \$10.00 and \$10.00. Contest closes December 15. Winner slogan printed in this paper January 15 to February 15, 1935. Send slogan if contestants do. Hoffman Products Co., Contest Dept., Spokane, Idaho.

Be Young In Body, Mind
Looks Despite Your Years

How often you have wished that you could indulge in the strenuous exercise of outdoor sports with the vigor and enthusiasm of youth! But the end of the week finds you all in—you are tired, listless and lack the energy to go out for a vigorous walk or a round of the links—or any other exercise that requires much physical exertion. Many a man, even in his middle forties, has a vague feeling that he is "getting old"—and right at a time when he should be at his very best physically.
